

Quality Statement

Inline Plastics Corp. aspires to be the industry leader at providing our customers with safe, highest quality, innovative, and cost-effective packaging and packaging automation solutions that meet or exceed customer expectations. Meeting our customer's expectations and requirements is part of our Culture and it's one of our Core Values. Our mutual obligation of providing safe quality food to the industry at large is especially embedded in our Culture. The food safety focus behaviors of our Culture will be accomplished through superior commitment to continuous improvement in product and safety innovation, customer satisfaction, quality, and operational excellence. All our products will meet or exceed food safety compliance laws and GFSI standards.
