Automation
Solutions Available

We design, develop and support custom packaging automation

Safe-T-Chef®

The first tamper evident and tamper resistant polypropylene product family for hot food applications.

Choose from a variety of sizes and shapes, as well as vented or non-vented options.

Keep contents safe and secure when using third party delivery services for prepared foods.

High clarity and a smooth, modern design creates an impressive display.

Hot Stuff!

Perfect for applications such as:

√ Take out
√ Third party delivery
√ Grab n Go

Markets include:

√ Restaurants
√ Convenience Stores
√ Food service
√ Supermarkets
√ Processors

Great for microwaves, heat lamps, and food warming displays.

Safe-T-Chef® is dishwasher safe allowing consumers to reuse the packaging.

We strongly recommend that customers test products under their specific conditions to determine fitness for use.

Anti-fog

All vented SKUs are enhanced with an anti-fog feature reducing moisture formation that can obscure the view of hot-packed foods.

The benefits of the anti-fog include improved visibility and appeal of the food, increased sales and reduced food waste, while supporting easier recycling due to the all-clear nature of the packaging.
