

Dear Customer:

This is to certify that the raw material used in the production of Inline Plastics Corp. products complies with the following regulations of the U.S. Food & Drug Administration (“FDA”):

1. Oriented Polystyrene (OPS) material complies with FDA regulation 21 CFR 177.1640 for use as a basic component of single use food contact surface.
2. Polyethylene Terephthalate (PETE) material complies with FDA regulation 21 CFR 177.1630 for use as a basic component of single use food contact surface.
3. Coatings: silicone and anti fog, comply with FDA regulation 21 CFR 175.300. Resinous and polymeric coating used as the food contact surface of articles intended for the use in manufacturing, packaging, processing, preparing, treating, transporting, or holding food.

Inline Plastics Corp. requires that the suppliers of raw material sheet also comply with the model CONEG legislation concerning toxic heavy metals and California Proposition 65 as well as compliance to the EU Regulation 10/2011.

Under Good Manufacturing Practices, these materials may be safely used as components of articles that directly contact food, in accordance with and subject to limitations as set forth in the above referenced regulations.

Inline Plastics Corp. makes no warranty, expressed or implied, other than that the above-described material conforms to the aforementioned regulations. The proof of applicability, merchantability and safety of such materials is the sole responsibility of the end user.

Regards,

Ted Bednarsky
Quality Systems Supervisor
