Radiological Hazard Statement

Inline Plastics Corp. has received written notification from its suppliers indicating that there is no known radiological hazard associated with the raw materials provided for the manufacture of Inline Plastics Corp. products.

Inline Plastics Corp. does not utilize equipment or processes that generate radiological hazards within its manufacturing facilities. Additionally, Inline Plastics Corp. facilities are not located in areas with a known history of nuclear incidents and are not situated in close proximity to nuclear power plants. Based on this information, Inline Plastics Corp. does not consider its operations to be susceptible to radiological exposure or incidents.

Customers are responsible for determining that the use of the product(s) is safe, lawful, and technically suitable for their intended applications.

This certificate is issued as a continuing statement and shall remain in effect until revoked in writing. This version supersedes all previously issued certificates.

Sincerely,

A handwritten signature in black ink that reads 'Julie A. VanBennekom'.

Julie VanBennekom
Corporate Quality and Compliance Manager
