Radiological Hazard Statement

Inline Plastics Corp.'s suppliers have notified us that there is no radiological risk associated with the raw material they provide in the manufacture of our products.

Inline Plastic Corp. does not have any instruments which may cause a radiological risk within our facilities. Our factories are not located in areas with a history of nuclear occurrence and do not have nuclear power plants in their vicinity, therefore, they are not susceptible to radiological accidents.

You must make your own determination that your use of the product(s) is safe, lawful, and technically suitable in your intended applications.

This certificate is continuing and shall remain in full force and effect until revoked in writing. This version supersedes all previous certificates that might otherwise be effective.

Sincerely,

Jim Parker
Director Corporate Quality, Compliance, and Continuous Improvement
Inline Plastics Corp.
