

26 December 2025

Absence of Genetically Modified Organism (GMO)

Inline Plastics Corp. has received written notification from its primary sheet suppliers stating that the materials supplied do not contain genetically modified organisms (GMOs).

Inline Plastics Corp. does not intentionally introduce GMOs during the conversion of raw materials into thermoformed containers.

Customers are responsible for determining that the product(s) are safe, lawful, and technically suitable for their intended applications.

This certificate is issued as a continuing statement and shall remain in effect until revoked in writing. This version supersedes all previously issued certificates.

Sincerely,

A handwritten signature in black ink, appearing to read 'Julie A. VanBennekom', with a stylized flourish at the end.

Julie VanBennekom
Corporate Quality & Compliance Manager
Inline Plastics Corp.
