

# BETTER PRODUCTS

*Environmental Benefits Through Proprietary Production Processes.*

**As an industry leader in rigid plastic food containers, we strive to improve the environmental benefits of our container line. First, we converted our entire line of packaging to PET<sup>♻️</sup>, the most recycled plastic in the world.**

By choosing to use new technology, we are proud to be able to provide you with an environmentally friendly product without sacrificing our high standards or quality. We provide you and your customers with quality PET containers that have a carbon footprint equal to or lower than 50% PCW rPET.

## **Our New Technology Benefits**

**Proprietary Direct-To-Sheet Process** - eliminates 5 stages of conventional APET sheet production process.

**Increases Productivity Precision and Reduces Waste**

**25% Lower Carbon Footprint** - than competing APET material.

**Decreases Manufacturing Energy Consumption by 65%**

**Equal or Lower Carbon Footprint** - to rPET containing up to 50% post consumer content.

## **New Process Enhancements**

**Product Presentation & Shelf Impact**

**Superior Gloss**

**High Clarity & High Definition**

- with 90% light transmission.

**Unmatched Uniformity**

**Higher Resistance To Cracking**

All of our containers are made with Polyethylene Terephthalate (PET) material that complies with FDA regulation CFR 21 #177.1630 for use as a basic component of single use food contact surface. Storage/Shipping Temperature: 0°F to 140°F.
